

WESTINGHOUSE
LIGHTING
SOLUTIONS

As featured in
Plant Services Magazine
Sept. 2008 issue.

DISTRIBUTION

WEST MARINE

Hall, South Carolina

BENEFITS:

- Annual Energy & Operational Savings **\$151,000**
- Payback **<13 months**
- Compounded Annual Return **23%**

West Marine realized that retro-fitting metal halide lighting to T5 fluorescent was a “no-brainer”. After evaluating many different manufacturers they realized that only Westinghouse Lighting Solutions met the footcandle specifications AND provided 70% energy savings. Westinghouse’s predominant use of a 2 lamp 117 Watt aisle beam system not only contributed to a 70% total energy savings, but also used 4,000 less lamps than other proposed systems: an additional \$100,000+ in maintenance cost avoidance.
